

# Airfield Guidance Slim Sign Board (LED)

VAS-SL-MAGS VAS-SL-SNI VAS-SL-WGS

## Compliance with standards

- ICAO Annex 14 Volume-I
- ICAO Aerodrome Design Manual Doc 9157 Part 6
- FAA: AC 150/5345-44

#### **Applications**

Airfield Sign boards are used for providing guidance & information on runways & taxiways.

Also, the SNI Boards (Stand Number Identification) are used for parking aircraft at the exact location.

#### **Features**

- Slim Sign Board with 45 mm thickness.
- Aluminium alloy extruded profile, light weight, corrosion-resistant anodized, designed for use in harsh environments.
- Equipped with single sided light source and evenly illuminated display with advance light guiding system.
- UV resistant PC Display Sheet and vinyl tape.
- An integrated, encapsulated electronic converter for Series circuit (2.8-6.6A) or 230VAC circuit.
- Long-life LED lighting technology with low power consumption.
- Easy installation and easy maintenance at low cost.
- Any topology of CCRs designed in accordance with ICAO or FAA requirements can be used.

#### **Performance**

- Protection Degree: IP67
- Working Temperature: -40°C to +55°C
- Signs can withstand Jet Blast & High Wind Pressure (322 km/h).
- Power factor typically >0.95

## **Electrical Supply**

| Power                     | Requirements |
|---------------------------|--------------|
| Constant Current          | 2.8-6.6 A    |
| Regulator (Series System) |              |
| Mains Power System        | 230VAC       |
| (Constant Voltage)        |              |

#### **Photometric**

For Visual range: <800m

| Colour | Min. Required         |  |
|--------|-----------------------|--|
| Red    | 30 Cd/m <sup>2</sup>  |  |
| Yellow | I50 Cd/m²             |  |
| White  | 300 Cd/m <sup>2</sup> |  |

For Visual range: >800m

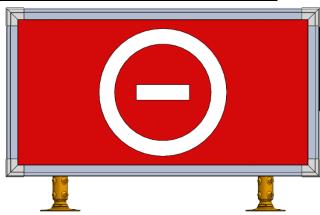

| Colour | Min. Required        |  |
|--------|----------------------|--|
| Red    | 10 Cd/m <sup>2</sup> |  |
| Yellow | 50 Cd/m <sup>2</sup> |  |
| White  | I00 Cd/m²            |  |

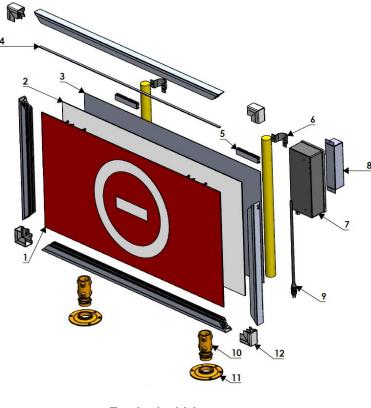

#### Power consumption

| Sign<br>Board<br>Length | Supply | Wattage (Appox.) | Transformer Size (Min.) |
|-------------------------|--------|------------------|-------------------------|
| Up to 1m                | 6.6A   | 24W              | 30W                     |
| 1m~1.5m                 | 6.6A   | 24W-36W          | 45W                     |
| 1.5m~2m                 | 6.6A   | 36W-48W          | 65W                     |
| 2m~3m                   | 6.6A   | 48W-72W          | 100W                    |

## Components

| S. No. | Part Name           | Part Code |
|--------|---------------------|-----------|
| I      | Display Sheet       | VASPC001  |
| 2      | LGP Sheet           | VASLGP001 |
| 3      | Back Sheet          | VASALU048 |
| 4      | LED Strip           | VASLED001 |
| 5      | Mounting Bracket    | VASALU049 |
| 6      | C-Clamp (Dia. 50mm) | VASSS001  |
| 7      | Driver Box          | VASALU052 |
| 8.1    | Driver 230V         | VASDVAC01 |
| 8.2    | Driver (2.8-6.6Amp) | VASDCAC02 |
| 9      | Secondary Lead      | VASLEA003 |
| 10     | Frangible Coupling  | VASALU035 |
| 11     | Base Plate          | VASALU036 |
| 12     | Corner Cap          | VASRUB017 |
