

Features

- It operates normally in a standard reference mode where level is displayed as 0.00°.
- The 360° range of the unit is organized into four 90° quadrants for display purposes.
- Display resolution is 0.01° near level (0.00° to 9.99°) and 0.1° at all other angles (10.0° to 90.0°).
- A 9-volt lithium battery can be used for even longer life. And it provide 500 hours of use.
- To extend battery life, It shuts off automatically when left undisturbed for five minutes.
- It is easier to carry and use.
- less maintenance.
